DETAILED ACTION***Allowable Subject Matter***

Claims 1,10,11,20 are allowed. The following is an examiner's statement of reasons for allowance: whereas the prior art of record may teach or make obvious a steering apparatus comprising steering motor (e.g. 1st motor) to supply a steering mechanism with force corresponding to a steering amount applied to a steering member (e.g. steering wheel), comprising: a reaction force motor (e.g. 2nd motor) supplying the steering member with steering reaction force; a vehicle wheel sensor; a torque/current sensor sensing the steering motor torque/current; a means for filtering/extracting a component within a frequency range out of the sensed torque/current; and driving the reaction force motor (2nd motor) so as to supply the steering member (steering wheel) with a force corresponding to the extracted component and the steering amount, wherein the frequency range increases and decreases based on the vehicle wheel frequency having a range of about 3hz to 15hz ;

the prior art of record does not teach or make obvious combining said apparatus with an apparatus in which a the predetermined frequency range has a lower limit of 3Hz and an upper limit of 9Hz at high vehicle speed and an upper limit of 15 Hz at low vehicle speed, the speed sensed by a vehicle speed sensor; and the extracted component is amplified with an amplification factor which increases as the detected vehicle running speed decreases and decreases as the detected vehicle running speed increases; the steering reaction force is calculated by setting a target value of a steering reaction force which corresponds to the steering amount and adding the target value to the extracted and amplified component and driving the reaction force motor so as to supply the steering member with the calculated steering reaction force.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
